Runnin' through the Blues Hills without a care

I wonder do you miss me
Late night, all alone
Do you wish that somehow
You could call me on the phone?
Ask me where I've gone to
And when I will be home
I wonder do you miss me
Late night, all alone

Drivin' down this cold and rainy night
Prayin' my directions are right
Lonely roads and cheap motels
Sometimes they make me feel like hell
But I close my eyes, I'm right there by your side

Lord knows I miss you
Late night, all alone
I wish that somehow
I could call you on the phone
And tell you where I've gone to
And why I won't be home
Lord knows I miss you
Late night, Late night, all alone
