

More Than Life Itself

music and lyrics ©2005 Jesse Moore

(All chords are played with Capo at 5th fret)

D G
Last night in a dream I heard you cry
D E A
I watched as the stars fell from the sky
D C G
I held you near and whispered in your ear
D A D
I love you more than life itself

Chorus:

D
I love you more than life itself
E A
And though I must leave, we will never be apart
D D7 G
Just close your eyes, I'm right there in your heart
D A D
I love you more than life itself

You are the smile that shines on my day
Somehow you chase all my demons away
Please understand, my heart is in your hand
I love you more than life itself

Chorus
